- Cut two of each pattern piece.
- Begin by stitching the sewing onto the body with a decorative running stitch in white.
- Create the eye with a French knot using black thread.
- Sew the two feet pieces together with a decorative running stitch in a light brown as illustrated in the pattern.
- Stitch the front and back together with a blanket stitch. When doing the blanket stitch, pause when you come to the feet. Insert the feet into the duck and tack into place; resume blanket stitch going around the feet. Pause and stuff the body with fiberfill before completing the blanket stitch.
- Create the bill with two rows of satin stitches using orange embroidery thread.
- Embellish with sequins.
