You'll make two mirror images of this bird that you will sew together to create a double-sided ornament.

Position and tack the cap into place with matching embroidery floss. Cut a circle of black felt for the eye; tack. Position the beak and tack with a running stitch in black floss down the middle.

Position the belly and tail on the body; tack. Position the wing into place; pin. For the decorative stitches, use a series of laisy daisy stitches - the more the better for this little bird.

Fashion legs from wire and tack to the wrong side of one of the body pieces. Sew the front and back body pieces together using a blanket stitch with black embroidery floss, pausing to lightly stuff with fiberfill before completing.

Have Fun! *Susan*
