Sew the cap in place with the white decorative stitching using two strands of floss. Cut a small oval of red for the eye; tack with a black French knot. Layer the orange and red bill pieces; tack with white floss and add a few satin stitches in white to complete the bill. Tack the face in place.

Layer the upper and lower wings and pin into place, positioning the upper belly over the wings. Tack with the white decorative stitching as shown in the picture. Position the chest; tack. Position the white stripe over the left edge of the chest and tack with a running stitch catching the tip of the upper belly in the process. Complete the body with the two rows of brown decorative brown stitching near the tail.

If desired, tuck the leg between the body pieces. Sew the body pieces together with a blanket stitch using two strands of black floss, pausing to lightly stuff with fiberfill before finishing.

Have Fun!
