

Downeast Thunder Farm Raven

Copyright 2016 Downeast Thunder Farm
www.downeastthunderfarm.com

Create two mirror images of this raven for a double-sided ornament. Position the tail and tack; add decorative stitching with two strands of black floss. Position the wing and tack at the shoulder; add the decorative stitching. Position the beak and add the decorative stitching to create the mouth with black floss. Cut a small circle of black felt for the eye and tack with some black seed beads.

Tack the legs to the wrong side of one body piece. Alternatively, fashion legs from wire and tack to the wrong side of the body.

Sew the body pieces together with a blanket stitch using two strands of black floss.- Before finishing the blanket stitching, lightly stuff with fiberfill.

Have Fun!
