Create two mirror images of the chipmunk for a double-sided ornament.

Cut a small circle of black felt for the eye. Tack in place with a black seed bead. Add the ear with the decorative stitches as shown using brown floss. With tan colored floss, add the decorative stitches that run from the ear to around the eye. Tack the chin and belly in place with matching floss. Using brown floss, add the stitches that create the nose and mouth. Position the two stripes on the body back; using brown floss sew a running stitch down the center to fix both pieces. Add the decorative stitching to the tail and arm as noted in the plan.

Sew the body pieces together with a blanket stitch using two strands of brown floss. Before finishing the blanket stitching, lightly stuff with fiberfill.

Have Fun! *Juan*
