Create two mirror images for a double-sided bird. Position the face. Cut a small oval for the eye and tack into place. Add the beak and tack. Pin the back in place and then position the wing and pin. Add the decorative stitching to the wing as shown.

If desired, fashion a pair of wire legs and tack them to the wrong side of one of the body pieces.

Sew the body front and back together with a blanket stitch using black floss, pausing to gently stuff with fiberfill before finishing.

Have Fun!
