

Downeaster Thunder Farm Humpback Whale

Copyright 2018 Downeast Thunder Farm

Create two mirror images of the whale for a double-sided ornament. Note: I used two strands of floss throughout.

Position the belly on the body; pin. With black floss, add the running stitches and French knots at outlined on the pattern. Use a black seed bead for the eye. Outline the eye with a few gray stitches.

Position the fin and tack along the top with black floss. With white floss, create two rows of alternating running stitches close together. Pin the two body pieces together; sew together with a blanket stitch. Along the belly use white floss for the blanket stitch; for the body use black. Pause before finishing to lightly stuff with fiberfill.

Have fun! *Susan*
