

Downeast Thunder Farm

Cricut Song Sparrow

© 2022 Downeast Thunder Farm

I have a Cricut Maker 3, and I designed my wood birds specifically for this machine. As a novice Cricut user, I share these SVG files for personal use. I cannot provide technical support.

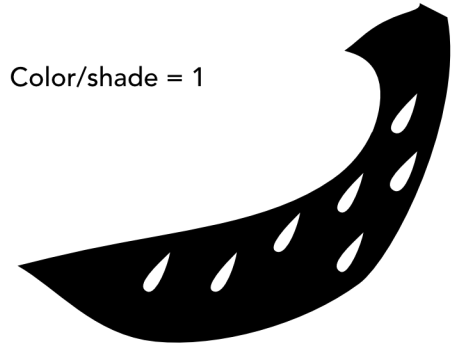

While I cut my birds from wood veneer, you can use any color paper. I have color-coded these for wood from lightest (1=lightest) to darkest (4=darkest).

Cut one body and two of the other pieces for a double-sided ornament.

Unlike my other wood birds, this one assembles like a puzzle rather than with multiple overlapping pieces.
