Joyful Owl Wreath

This is a single-sided owl designed to be tucked in the center opening of a Christmas wreath. For the face, use two strands of light gray for the two rows of running stitches around the edge. Use two strands dark gray for the face lazy daisy stitches. Tack eyes with a black running stitch around the edge of the eyes finished off with a white seed bead. Create French knots with three strands of dark gray floss on the forehead, neck and belly. The wing uses three strands of white floss. Use two strands of light gray floss to sew a blanket stitch around the inside of the wing. Sew two body pieces together with a light gray blanket stitch, pausing before finishing to lightly stuff with fiberfill.

Have fun!

Susan
