

Downeast Thunder Farm North Atlantic Right Whale

Copyright 2020 Downeast Thunder Farm

1. Position the belly and tack with white floss.
2. With two strands of gray floss, sew the running stitches that define the mouth and the tail.
3. Position the eye and tack with a black seed bead.
4. Position the fin and tack with black floss.
5. Add the spots to the nose area with off-white or light gray french knots or seed beads.
6. Repeat on the mirror side of the second body.
7. Sew the two body parts together with a blanket stitch using two strands of floss - black along the body and white along the belly. If desired, pause before finishing to lightly stuff with fiberfill - I used only a very small amount in mine.

Have fun!

Susan
