

Downeast Thunder Farm Redstart

Copyright 2021 Downeast Thunder Farm

- Position belly and tack with a white running stitch.
- Position the underwing and tack with one strand of orange floss.
- Position wing and tack along the edges with one strand of black floss.
- Position and tack wing marking to the wing with orange floss.
- Add the black running stitches to the wing, cheek, and chest.
- Position the eye and tack with a black seed bead.
- Position the beak and tack with a black running stitch for the mouth.
- On the back of one of the bodies, add wire legs if desired.
- Create a mirror image of the bird for the back.
- Sew the two sides together with a blanket stitch using white on the belly and black everywhere else. Pause before finishing to lightly stuff with fiberfill if desired.

Have fun!

Susan
