

Downeast Thunder Farm Gnomes

Copyright 2021 Downeast Thunder Farm

- Design these gnomes using any combination of colors you like.
- Position the beard on the body. Tack with a white running stitch along the edge.
- Position the hat - the top aligned with the body top. The nose can be positioned under or over the hat. Tack the nose with a beige running stitch around the edge.
- Sew the bottom edge of the hat with matching colored floss or a coordinating colored floss. Use a running stitch or blanket stitch if you'd like the extra detail.
- Embellish the hat with seed beads, French knots, pom-poms, or stitched stars.
- Create the back in the mirror image in the same manner with the hair tucked under the hat.
- Sew the two bodies together with a blanket stitch. Match your floss the felt color. Pause 1.5" from the end and stuff lightly with fiberfill. Finish and tie off.

Have fun!
