Blanket Stitch

Outline Stitch

Sew the face onto the body front with an outline stitch. With brown thread, sew the beak outline with a running stitch. Sew on small black buttons for the eyes.

Lay the feathers out on top of the picture, arranging the feathers so no two of the same color feathers are touching. Tack the feathers onto the body front, starting at the bottom, work your way up to the top. For the top row of feathers, use a decorative running stitch along the top of the feathers.

Once the feathers are in place, sew the front and back pieces together with a blanket stitch pausing to stuff the body with fiberfill before completing.
