Pin the head onto the body front. Sew on a circle of black felt for the eye. Tack the beak into place with the decorative stitching.

Pin the tail into place and tack with the decorative stitching.

Pin the wing and shoulders on the body. Use a running stitch around the top edge of the shoulders. Sew decorative stitching on wing.

Pin the completed body front to the body back and sew together using a blanket stitch. Pause to stuff with fiberfill before finishing.

Note: I completed all of the stitching with two strands of black embroidery floss.

Have fun!
