Pin the tail piece onto the body. Sew on the "feathers" by making a small circle of bright blue floss, surrounded by bright green floss and then finished with gold floss. Make as many feathers as you like on the tail. Pin the second tail piece to the back of the tail piece with the feathers. This will hide the stitching on the wrong side of the front facing wing piece.

Pin the under-wing and wing to the body front. Sew the decorative stitching on the wing using bright blue floss.

Sew a white oval for the eye. Place a black French knot in the center to finish the eye. Sew a series of French knots in blue to the end of the plume. Position the plume to the back body piece; tack into place.

Pin the completed body front to the body back. Sew the pieces together using a blanket stitch in bright blue. Pause to stuff with fiberfill before completing the blanket stitch. Tack the beak into place.

Have fun!
