This kitty is our black cat, Snape - aka Boo-Boo Bear or simply, Boo. You can adjust the colors as you like.

Tack the eyes to the face using black floss. Tack the nose to the face with medium gray floss. Add all of the decorative stitching that defines the face, legs, and tail with the same medium gray floss; I used two strands.

Using that same floss, create whiskers by knotting one end of the floss and run it through the face from the back side; snip and continue by knotting the floss again and adding another whisker. Add as many whiskers as you like. Don't snip them too short - you can go back and trim when you're finished.

Sew the body front and back together with a blanket stitch using black floss. Pause before finishing to gently stuff with fiberfill.

Have Fun!
