

Downeast Thunder Farm Barn Owl for a Christmas Wreath

Copyright 2017
Downeast Thunder Farm

Position the wings on the body front and sew using a blanket stitch in gray floss - don't sew the outside edge at this time.

Position the face and sew the edges with a brown blanket stitch. Position the eyes; tack with black floss; add a clear seed bead to each eye for interest.

Tack the beak with brown floss and add the decorative stitching on the face. Add the decorative stitching to the body using gray floss.

Sew the body front and back together with a gray blanket stitch. Lightly stuff with fiberfill before finishing. Have fun!

Susan
